

Ecoline Dia

Item number 28200, KMAT 61000243

Product description

EcoLine Dia is a sustainable curtain fabric made from 100% recycled polyester (post-consumer plastic). Sustainability, functionality & design come together skillfully in this opaque decorative fabric. The pearly structure created by the interesting interplay of weaves gives the fabric a particularly beautiful, natural feel and a soft drape. The subtle, fine sheen creates a special look in combination with the monochrome colors. With an extra width of 320 cm, OekoTex and 72°C washability, EcoLine Dia is ideally suited for use in the health & care, education & administration, hotel and shipping sectors.
